Dr. Hassan Zaraket is a scientist, an entrepreneur, and a leader. He earned in bachelor degree in Pharmacy in Lebanon in 2005. He then received a scholarship to pursue a PhD degree in infectious diseases in Japan, following which he moved to the United States to continue his postdoctoral studies in virology. In 2012, he started and served as the chief technology officer of *US Biologic*, a company developing a wildlife vaccine for Lyme disease. He was among the managing team that raised a \$1.5 million round A investment. As a scientist, Dr. Zaraket has led several research teams. He is currently an assistant professor at the Faculty of Medicine the American University of Beirut. He is also serving on the board of International Society for Influenza and Other Respiratory Viruses. He has passion for training young scientists on research, time management, and leadership. He published over 40 research articles and reviews and presented his work at many international and local conferences.

## PROFESSIONAL EXPERIENCES

current	<b>Member</b> , Board, International Society for Influenza and Other Respiratory viruses ( <i>isirv</i> ), London, UK
2014-current	<b>Assistant Professor, Virology</b> , Department of Experimental Pathology, Immunology, and Microbiology, Faculty of Medicine, American University of Beirut, Beirut, Lebanon
2009-2014	<b>Postdoctoral Research Associate</b> , Division of Virology, Department of Infectious Diseases, St. Jude Children's Research Hospital, Memphis, TN, USA
Dec 2013	<b>Visiting Scientist</b> , School of Public Health, Hong Kong University, Hong Kong
2012-2013	<b>Chief Technology Officer and Co-founder</b> , US BIOLOGIC, Memphis, TN, USA
2008-2009	<b>Research Assistant</b> , Division of Public health, Graduate School of Medical and Dental Sciences, Niigata University, Japan
2006-2007	<b>Teaching Assistant</b> , Microbiology, School of Medicine, Niigata University, Japan
2004-2005	<b>Community Pharmacist</b> , Spears Pharmacy, Beirut, Lebanon

## ACADEMIC DEGREES

Sept/2009	<b>PhD, Community Disease Control</b> . Division of Public Health, Graduate School of Medical and Dental Sciences, Niigata University, Niigata, Japan
Jun/2004	<b>Bachelor of Science Pharmacy</b> , Beirut Arab University, Lebanon

## RESEARCH INTERESTS

- Emerging viral pathogens
- Epidemiology and molecular evolution of respiratory and gastrointestinal viruses
- Viral infections and the sphingolipid pathway
- Virus and host determinants of virulence and host range of influenza viruses
- Viral co-infections
